

Protect Indiana Jobs

protectindianajobs.com

Petition to Protect Indiana Jobs!

Whereas, unemployment in Hamilton County in June 2009 was 6.8 percent – the highest it's been since 1990; and,

Whereas, student loan providers employ hundreds of residents of Indiana; and,

Whereas, student loan providers and their employees have been strong supporters of community-based organizations in Indiana; and,

Whereas, proposals in Washington, D.C. to restructure federal student loan programs could result in the needless elimination of jobs in Indiana.

We, the undersigned residents of Indiana urge Members of our Congressional delegation to fight to protect good, family-supporting student loan industry jobs in our community and options for students while restructuring federal student loan programs and investing savings in need-based college financial aid.
